INTERDISCIPLINARY OPPORTUNITIES

These pages identify interdisciplinary areas and courses in those areas. Some students may explore these areas through one of the formal programs of study. Students may also wish to plan their own programs in one of these areas: Tutorial Studies (collegecatalog.uchicago.edu/thecollege/tutorialstudies) or Interdisciplinary Studies in the Humanities (collegecatalog.uchicago.edu/thecollege/interdisciplinarystudieshumanities). Students should discuss these options with their College advisers.

- Big Problems (collegecatalog.uchicago.edu/thecollege/bigproblems)
- Chicago Studies (collegecatalog.uchicago.edu/thecollege/chicagostudies)
- Clinical and Translational Science (collegecatalog.uchicago.edu/thecollege/collegeccts)
