### Additional Details

Students who wish to study abroad should attend the Autumn Quarter information meetings organized by the Study Abroad Office. Students should discuss their plans with their College adviser to determine the implications of study abroad for their degree program in Chicago and should make an appointment with the relevant Study Abroad staff member to discuss the application process. Visit the College Scheduling site (<https://collegescheduling.uchicago.edu/samonline/BookAppt?C=C&T=P&P=88>) to make an appointment. For more information, including the most current list of program locations, visit [study-abroad.uchicago.edu](http://study-abroad.uchicago.edu).

Participants in University of Chicago Study Abroad programs pay the same tuition as if they were on campus, plus a non-refundable study abroad administrative fee and, in most cases, a program fee set by the College. Each program fee includes housing and subsidizes the cost of excursions and instruction; please visit the specific program pages (<http://study-abroad.uchicago.edu/programs>) for precise fees. Financial Aid (<http://study-abroad.uchicago.edu/tuition/financial-aid>) and Scholarship and Grant (<http://study-abroad.uchicago.edu/tuition/scholarships-grants>) opportunities are available.

Students participating in some study abroad programs (e.g., direct enrollment programs) are not eligible for the Dean's List for that year. Please note that more than half of the requirements for a major must be met by registering for courses bearing University of Chicago course numbers.

### Summer International Travel Grants

Each year the College awards approximately 100 Summer International Travel Grants to support outstanding undergraduates for intensive language study or research abroad. Funding begins at \$4,000. Applications are submitted online (see the Study Abroad website (<http://study-abroad.uchicago.edu/sitg>) for details) and are normally due mid-February.

### Foreign Language Acquisition Grants (FLAG)

The FLAG Program offers awards of \$4,000 to defray the costs of intermediate or advanced language study abroad. Study programs must be at least eight weeks in duration of intensive language study (at least 15 hours per week) and located in a setting where the target language is predominantly spoken. Applicants must have completed or placed out of the first year of the target language by the program start date. If a language is not offered on campus, applicants may apply at any level. For French and Spanish language applications, preference will be given to students who have completed some intermediate language study.

**Research Grants**

Research grants provide \$4,000 to support students conducting summer research outside the United States. In most cases these awards support research leading to a BA paper; however, other academic research projects may also be considered.
