Sociology Department Website: http://sociology.uchicago.edu

Program of Study

The discipline of sociology explores the nature, structure, and dynamics of social life, and also its causes and consequences for the world. With this broad mandate, sociology encompasses a diversity of substantive interests, methodological approaches, and theoretical orientations. Sociologists study diverse social phenomena ranging from online conversations, friendship, and families to neighborhoods, governments, and global markets. They study cities and communities, inequality, social mobility and social class, patterns of population change and migration, social identities such as race, class, and gender, ethnic relations and social conflict, social media and digital interaction, and social dimensions of sex, health, business, education, law, politics, religion, and science. Sociologists study the emergence, stabilization, disintegration, and wide-ranging implications of these social institutions, behaviors, and meanings. Methodologies of the field range from ethnography, interviews, and historical research to surveys, computational modeling, and big data analysis.

The University of Chicago’s sociology department was the first in the United States, and it stewards the American Journal of Sociology, the discipline’s longest running sociology journal. Chicago sociology builds on these legacies by continuing to sponsor pathbreaking research. Chicago training in sociology confers deep understanding of social organization and human relations, along with skill in drawing inferences from data, which has made it attractive for students considering careers in business, social media, data science, education, law, marketing, medicine, journalism, social work, politics, public administration, and urban planning. Chicago’s sociology education forms an excellent basis for specialized graduate work and affords entry to careers in federal, state, and local agencies, as well as into business enterprises, private foundations, and research institutes. Chicago’s sociology program provides a preeminent foundation for students considering careers in advanced research and university teaching. The program is designed to meet the needs of diverse students, and students declare a student-designed specialty that reflects their course work and BA thesis research, such as social policy or social analytics.

Program Requirements

Students pursuing a BA degree in sociology are expected to complete the following requirements. All required sociology courses are offered annually, and students should inquire directly of the director of undergraduate studies if they need to know when a course will be offered in the next academic year.

A. Social Theory

Two required courses acquaint students with some of the fundamental problems and analytic perspectives of the field of sociology.

SOCI 20002 Social Structure and Change. The central objective of this course is to introduce students to the sociological study of individuals in society—how individual actions are shaped by their position in society, while contributing to its structure and change. We focus on sociological approaches to American society, its position in the international system, and principal dimensions including race and ethnicity, age, gender, and social class.

SOCI 20005 Sociological Theory. Drawing on the classics as well as on contemporary works in sociological theory, this course raises questions about the nature of sociological theory and its relation to both empirical research and sociological inquiry. Authors include Weber, Durkheim, Simmel, Dewey, Parsons, and Merton.

With the approval of the undergraduate program director, students may use other courses toward this requirement.

B. Methodology

Students are required to take at least one of the following methodology courses.

SOCI 20001 Sociological Methods. This course introduces the philosophy and practice of social research. It explores questions of causality in social research and the limits of knowledge. It then covers the basic practices that are components of all methods of social research through an in-depth examination of interviews, ethnography, surveys, and archival, online, and computational research. Students spend the quarter working on a series of assignments that culminate in a research proposal for the BA thesis.

SOCI 20111 Survey Analysis I. This course teaches students how to analyze survey data and write up the results: basic logic of multivariate causal reasoning and its application to OLS regression, percentage tables, and log odds, with an emphasis on communicating insights.

SOCI 20140 Qualitative Field Methods. This course introduces techniques and approaches to ethnographic field research. Emphasis is placed on quality of attention and awareness of perspective as foundational aspects of the craft. Students conduct research at a site, compose and share field notes, and produce a final paper distilling sociological insight from fieldwork.

C. Statistics

Students must take the following statistics requirement.

SOCI 20004 Statistical Methods of Research. This required course provides a comprehensive introduction to widely used quantitative methods in sociology and related social sciences. Topics include analysis of variance and multiple
Students are required to attend this senior seminar in Spring Quarter of their third year and in the Autumn and Winter Quarters of their fourth year, but they must register for the seminar in only one of the three terms. Students who plan to study abroad during any of these quarters must still participate in the seminar by completing required assignments and submitting them online and on time. The completed thesis is submitted during Spring Quarter of their fourth year. Students graduating in a quarter other than Spring Quarter must turn in their theses by Friday of seventh week of their final quarter. When circumstances justify it, the department may set individual deadlines and enroll with permission of course instructors toward this requirement.

The senior project is researched, discussed, and written in the context of SOCI 29998 Sociology BA Thesis Seminar. After a faculty member agrees to advise a student’s thesis, the student will have the faculty member sign a hard copy of the BA Thesis Faculty Advisor Consent Form available for printing at sociology.uchicago.edu/sites/sociology.uchicago.edu/files/AdvisorConsentForm_0.pdf, which is to be turned in to the Department of Sociology office. Students must register for additional reading courses (SOCI 29997 Readings in Sociology); however, only two sociology reading/research courses can be counted toward courses required for the sociology major.

BA Seminar. The senior project is researched, discussed, and written in the context of SOCI 29998 Sociology BA Thesis Seminar, which is a required yearlong course. Students are required to attend this senior seminar in Spring Quarter of their third year and in the Autumn and Winter Quarters of their fourth year, but they must register for the seminar in only one of the three terms. Students who plan to study abroad during any of these quarters must still participate in the seminar by completing required assignments and submitting them online and on time. The completed thesis is submitted during Spring Quarter of their fourth year. Students graduating in a quarter other than Spring Quarter must turn in their theses by Friday of seventh week of their final quarter. When circumstances justify it, the department may set individual deadlines and procedures.

Three approved courses in an area of specialization * 300

Four additional courses in sociology or related fields * 400

SOCI 29998 Sociology BA Thesis Seminar 100

Total Units 1200

* No more than three courses from outside sociology and no more than two reading and research courses may be used toward the major. Students must submit the College's General Petition Form (https://college.uchicago.edu/advising/forms-and-petitions) for approval of courses outside sociology. See “Additional Courses” section for details.

** May substitute STAT 20000 or higher

Grading

All courses required for completion of the sociology program must be taken for quality grades (e.g., not P/F).

Honors

If the student's cumulative GPA is at or above 3.25 and the student's GPA in the major is at or above 3.5, the student may be nominated for graduation with honors on the basis of the excellence of the thesis. The thesis must be based on substantial individual research conducted under the guidance of a faculty member, and it must be evaluated both by the student's adviser and by the program chair at A- or A.

Entering the Major

No special application is required for admission to the sociology program, but students should discuss their plans with their College adviser prior to declaring the major. They must then declare their intention to major at my.uchicago.edu and inform the Department of Sociology at sociology.uchicago.edu/content/majoring-sociology-intake-form, which includes a short entry survey. Students may enter the program at any time upon completion of any social sciences general education sequence, but no later than the beginning of Spring Quarter in their third year.

Students are encouraged to complete the required introductory sociology courses (SOCI 20002 Social Structure and Change and SOCI 20005 Sociological Theory) as early as possible, and to enroll in a required methodology course by Spring Quarter of their third year, the quarter in which students begin SOCI 29998 Sociology BA Thesis Seminar.

Advising

Students should address technical questions regarding the program (e.g., required courses, petitions) to the undergraduate program director. During Spring Quarter of the third year, students will also select a faculty member to serve as adviser. Students may wish to contact their faculty adviser to address general questions regarding the discipline of sociology and to receive guidance in designing an individualized program of study and selecting a specialization.

Handbook

Students interested in pursuing the BA degree in sociology are encouraged to read the brochure Undergraduate Program in Sociology, which is available in the Office of the Department of Sociology (SS 307).
