

Transfer Credit

Transfer Credit

Transfer credit must be evaluated and approved by the Office of the Dean of Students in the College. If approved, transfer credit is listed on the student's University of Chicago transcript only as the number of credits approved to transfer. Transfer credit does not count toward the University of Chicago GPA, nor do the grades appear on the University of Chicago transcript. Students participating in University of Chicago–sponsored direct enrollment programs will have their credits vetted by the Study Abroad (<https://study-abroad.uchicago.edu>) office instead of the College Dean of Students office.

In this section, you will find guidelines for what credit may and may not be accepted by the College, as well as additional restrictions on course work in certain fields. In the subsequent sections are directions for submitting transfer course work for approval, specific rules related to transfer students, and additional restrictions on course work taken prior to matriculation. Course credit approved to transfer will count toward the 3800-unit credit minimum students are required to earn via course enrollment.

Minimum Requirements for Transfer Eligibility

Courses MUST:

- Be taken at an accredited institution that grants bachelor's degrees, subject to review by the Office of the Dean of Students in the College.
- Confer at least three semester hours or four quarter hours of credit. For institutions without standard credit hours, contact hours (normally a minimum of 30) may be used.
- Be completed with a grade of C or above (not C- or P). Students in science majors must earn at least a B in science courses.
- Not duplicate credit that students will earn or have already earned for college-level course work. (For instance, a student could not take PLSC 28701 Introduction to Political Theory and also transfer in credit for an Introduction to Political Theory course taken elsewhere.)
- Be in liberal arts subjects similar to those offered in the College at the University of Chicago.

Courses in the following categories are NOT eligible for transfer credit:

- Course work taken during a period of suspension from the University of Chicago.
- Calculus and pre-calculus. (Credit may only be earned via accreditation or AP test prior to matriculation.)
- Any kind of online/distance, tutorial, or independent study course work, including internship credit.
- Professional or technical courses, or course work otherwise unlike University of Chicago liberal arts courses. This includes such areas as: law, civil/mechanical engineering, speech, education, leadership, and first-year writing. Courses in media production will transfer if there is an equivalent course in the College, as verified by the relevant department.
- Undergraduate business courses will be reviewed for transfer credit by the faculty of the University of Chicago Booth School of Business. Chicago Booth actively discourages students from taking non-University of Chicago courses.
- Foreign language courses taken before Autumn Quarter 2017. Advanced literature or topics courses taught in a foreign language may qualify. Placement level is determined by exam.

Science course work must follow these additional guidelines:

- Students in any science major must earn at least a B in science courses.
- Courses must have a lab to be considered for the physical sciences general education requirement. At least one course in the biological sciences general education requirement must have a lab component.
- Chemistry course work must be taken at an institution accredited by the American Chemical Society.
- Chemistry majors may only transfer credit for general chemistry. Incoming transfer students may seek to earn credit for organic chemistry via an accreditation exam offered during Orientation Week.
- Physics courses must be calculus-based and include a lab component to be considered as a substitute for General Physics (e.g., .)

Courses petitioned to count for general education credit in the civilization studies or arts requirement must follow these additional guidelines:

- Should fulfill the spirit of the requirement and have similarities to eligible courses offered on campus.
- For the civilization studies requirement, area studies courses in history with an emphasis on primary sources will be favored over courses that focus on political science, anthropology, sociology, etc.

Language course work must follow these additional guidelines:

- Only courses taken in Autumn Quarter 2017 or later are eligible. Courses completed earlier (including Summer Quarter 2017) do **not** qualify.

- Completion of an approved intermediate- or advanced-level course with a B or above satisfies the language competency requirement.
- Satisfactory completion (grade of C or above) of approved courses equivalent to one year of introductory language study (e.g., GRMN 10100) qualifies the student for the on-campus language competency examination offered in Winter Quarter.
- Students planning or considering additional language study on campus should take the language placement test to confirm placement.
- Students may not duplicate credit, so completing the equivalent of, e.g., SPAN 10300 at another institution and taking SPAN 10300 at the University of Chicago (or vice versa) results in forfeiture of the transfer credit.
- Courses are subject to all other restrictions and guidelines on this page.

Process for Petitioning for Transfer Credit

For students taking courses elsewhere while enrolled in a degree program at UChicago:

Students who wish to take courses at other institutions after they enter the College should carefully read the regulations for transfer credit listed above and discuss their plans in advance with their College advisers. To have non–University of Chicago courses considered for transfer credit, students must follow these steps:

1. Submit a petition (<http://petition.uchicago.edu>) to the Office of the Dean of Students in the College, including course descriptions and/or syllabi, units of credit, and the name of the institution where courses will be taken. This information should be submitted online well in advance of taking the course. (Students with inactive logins should contact College Advising (collegeadvising@uchicago.edu) for a PDF version of the petition form.)
2. If approved by the College, the student may seek additional approval for use of that pre-evaluated credit toward major/minor/general education requirements. Instructions will be provided if/when the initial petition is approved. Note that approval is not guaranteed and should be sought as early as possible.
3. Have an official transcript sent to their College adviser upon completion of the course work.

Note: Students should petition for approval well in advance of the start date of the desired courses. Students submitting petitions without a sufficient window should not expect to receive a final decision before the courses begin, especially if they hope to use the course toward a particular requirement.

For students participating in a University of Chicago–sponsored direct enrollment program:

These students do not need to petition the College Dean of Students office and should instead speak to their program director in Study Abroad about the appropriate next steps.

For transfer students:

See Transfer Students below.

College Courses Taken Prior to Matriculation

Courses taken during high school and/or in the summer prior to matriculation:

Undergraduate courses taken during high school and/or during the summer prior to matriculation, including courses taught in the College at the University of Chicago, are not eligible for transfer credit.

Early College Programs

Students who have attended what are commonly known as early college programs (i.e., programs in an undergraduate setting attended in lieu of one or more years of high school) will fall into one of two categories:

- Students who may apply as traditional first-year students. In this case, any credit earned in the early college program is not eligible for transfer credit, or
- Students who *must apply to the College as transfer students*. If accepted these students will be held to the standards described in the Transfer Students section below. It is essential to note that all students accepted as transfer admits will be subject to the same expectations, including a shorter timeline for completing their college education.

Students from a number of early college programs, including Bard High School Early College and TAMS at North Texas, are considered by the University of Chicago to be first-year applicants, which means their credit is not eligible for transfer credit.

Any courses that were taken to fulfill high school graduation requirements will not be accepted for credit under any circumstances.

Students should contact College Admissions (collegeadmissions@uchicago.edu) for clarification of their entry status.

Transfer Students

After admitted transfer students have committed to attending University of Chicago, they receive information from the Admissions Office about how to submit the materials necessary for an evaluation of their previous college course work. Students must also have their previous institution send a final, official transcript to the Admissions Office. These materials should be submitted no later than June 15. *Transfer evaluations cannot be completed before a student has accepted an offer of admission.* Note that transfer credit does not count toward the University of Chicago GPA, nor do the grades appear on the

University of Chicago transcript. Students may not receive more than 1200 units of transfer credit for one academic year of work, nor may they receive more than 400 units of credit for one summer of study.

The evaluation of transfer credit is based on the guidelines and restrictions listed in the previous section.

Note the following restrictions in particular:

- Credit for calculus and pre-calculus is not accepted. Credit for calculus will be granted only by College accreditation or AP exam, or on the basis of completion of a higher-level course.
- Depending on the student's major and on the level of work to be evaluated, credit for some courses in other sciences may also be subject to examination.
- The restrictions on college course work taken during high school (outlined in the previous section) apply to all undergraduate students.
- Completion of an approved beginning-level language sequence at a different institution doesn't satisfy the language competency requirement; ordinarily, it would qualify the student to take an on-campus competency exam.

Residency Requirements and Enrollment Limits for Transfer Students

A transfer student must be in residence as a degree-seeking student in the College for at least six quarters (excluding summer quarters and UChicago sponsored summer abroad programs) and successfully complete a minimum of 18 courses (1800 units) while in residence. More than half of the requirements for a major and/or minor must be met by registering for courses bearing University of Chicago course numbers. Course credit approved to transfer will count toward the 3800-unit credit minimum students are required to earn via course enrollment.

The Dean of Students in the College expects all students to complete their degrees in a timely fashion, ordinarily within 12 quarters. This expectation will be tailored for transfer students who enter the College with a substantial number of credits. Based on the transfer evaluation, transfer students will be assigned a time frame in which they are expected to complete their requirements—typically six or nine quarters. Transfer students may petition the Dean of Students in the College for one additional quarter of study if academically necessary for the undergraduate degree. Transfer students may not register beyond their allotted quarters without the permission of the Dean of Students in the College.

After matriculation in the College, transfer students may not earn additional credits from schools other than the University of Chicago. Faculty-led study abroad programs sponsored by the College may be used to meet both the residency and course requirements. Transfer students will be allowed to participate in direct enrollment study abroad programs affiliated with the College, but these courses cannot be used to satisfy the residency requirement.
