Program of Study

The Department of Visual Arts (DoVA) is concerned with art making as a vehicle for exploring creativity, expression, perception, and the constructed world. Whether students take courses listed under ARTV to meet a general education requirement or as part of a major in visual arts, the goal is that they will develop communicative, analytical, and expressive skills through the process of artistic production. The following three courses meet the general education requirement in the arts: ARTV 10100 Visual Language: On Images, ARTV 10200 Visual Language: On Objects, and ARTV 10300 Visual Language: On Time and Space. Most advanced courses require one of these as a prerequisite. (See individual course listings for specific prerequisites.) Students majoring or minorning in visual arts cannot use an ARTV course to meet the general education requirement in the arts.

Range of Course Offerings

The following courses introduce visual communication through the manipulation of various traditional and nonart materials, engaging principles of visual language while stressing the relationship between form and meaning. Readings and visits to local museums and galleries are required.

ARTV 10100 Visual Language: On Images 100
ARTV 10200 Visual Language: On Objects 100
ARTV 10300 Visual Language: On Time and Space 100

ARTV courses numbered 21000 to 29700 include media specific courses that teach technical skills and provide a conceptual framework for working in these media (e.g., painting, photography, sculpture, video). Also included are more advanced studio courses designed to investigate the vast array of objects, spaces, and ideas embedded in the contemporary artistic landscape. ARTV courses numbered 20000 to 20999 are not studio-based and may not be counted toward studio requirements for the major or minor. ARTV courses in the 20000 to 20999 range may be counted toward the two electives relevant to the major. (See Program Requirements for more information.)

Students in other fields of study may also complete a minor in visual arts. Information follows the description of the major.

Program Requirements

The BA program in the Department of Visual Arts is intended for students interested in the practice and study of art. DoVA's faculty consists of a core of artists and other humanists interested in making and thinking about art. Students who major in visual arts take an individually arranged program of studio, lecture, and seminar courses that may include some courses outside the Humanities Collegiate Division. The program seeks to foster understanding of art from several perspectives: the practice and intention of the creator, the visual conventions employed, and the perception and critical reception of the audience. In addition to work in the studio, these aims may require study of many other subjects, including but not limited to art history, intellectual history, criticism, and aesthetics.

All students take ARTV 10100 Visual Language: On Images, ARTV 10200 Visual Language: On Objects, or ARTV 10300 Visual Language: On Time and Space in the first two years of their studies. (NOTE: Students majoring or minorning in visual arts cannot use an ARTV course to meet the general education requirement in the arts.) After completing one of these general education courses but no later than Winter Quarter of their third year, students meet with the Director of Undergraduate Studies to plan the rest of their program. At least six of the courses beyond the general education requirement in the arts must be drawn from the second level of studio-based offerings (studio art courses numbered 21000 and above). Please note that only courses that are primarily focused on art making can be applied toward this requirement. Students may take up to two studio-based independent study courses (ARTV 29700 Independent Study in Visual Arts) toward their six studio requirements. Two of the remaining three electives may include any intellectually consistent combination of visual arts studio courses, visual arts critical and theory courses, and any other relevant offerings in the College. One elective must be a 20000-level (not meeting the general education requirement in the arts) course in Art History (ARTH).

Students take ARTV 29600 Junior Seminar in their third year. At the end of the Junior Seminar, students may choose to apply for the visual arts studio track. Places in the studio track are limited. Applicants will be reviewed by a faculty committee at the end of their third year, and studio track decisions will be announced before the start of the Autumn Quarter of fourth year. Students in the studio track present their work in a thesis exhibition and may be eligible to receive shared studio space in their senior year. (See “Studio Track” section below for more details.)

Students who wish to study abroad in their third year should contact the department as soon as possible to discuss options for taking the Junior Seminar, which is generally only offered one quarter per year. Junior Seminar can sometimes be taken in the second year with permission from the Director of Undergraduate Studies.

All visual arts majors must take ARTV 29850 Senior Seminar in the Autumn Quarter of their fourth year. Students in the studio track are required to take an additional course, ARTV 29900 Senior Project, which serves as a critical forum to prepare for the thesis exhibition in the spring. (See “Studio Track” section below for more details.)

### Studio Track

Visual arts majors may apply for the studio track at the end of their third year. Places in the studio track are limited. Applicants will be reviewed by a faculty committee at the end of the third year, and studio track decisions will be announced before the start of the Autumn Quarter of fourth year. Studio track students work in consultation with the Director of Undergraduate Studies and the visual arts faculty to mount a thesis exhibition at the beginning of the Spring Quarter of their senior year. Studio track students may also be awarded shared studio space during the senior year, based on merit and need, and contingent upon space being available.

Additionally, studio track students must take ARTV 29900 Senior Project in the Winter Quarter of their final year, in preparation for their thesis exhibition.

### Honors

Students must have a portfolio of exceptional quality to be recommended to graduate with honors in visual arts. Visual arts faculty make final honors decisions at the end of the student's fourth year, based on performance in visual arts courses, the quality of participation in critiques, and the thesis exhibition.
Grading

Students majoring in visual arts must receive quality grades for the 12 or 13 courses that constitute the major. With consent of their College adviser and the instructor, nonmajors may take visual arts courses for P/F grades if the courses are not used to meet a general education requirement.

Minor Program in the Department of Visual Arts

The minor in visual arts requires six courses: one is from the 10000-level sequence (ARTV 10100 Visual Language: On Images, ARTV 10200 Visual Language: On Objects, or ARTV 10300 Visual Language: On Time and Space), and five are drawn from visual arts studio courses numbered 21000 to 29700, chosen in consultation with the Director of Undergraduate Studies. ARTV courses numbered 20000 to 20999 are not studio-based and may not be counted toward studio requirements for the minor. (NOTE: Students minoring in visual arts cannot use an ARTV course to meet the general education requirement in the arts.)

Students who elect the minor program in visual arts must meet with the Director of Undergraduate Studies before the end of Spring Quarter of their third year to declare their intention to complete the minor. Students choose courses in consultation with the Director of Undergraduate Studies. The Director's approval for the minor program should be submitted to a student's College adviser by the deadline above on a form obtained from the adviser.

Courses in the minor (1) may not be double counted with the student's major(s) or with other minors; and (2) may not be counted toward general education requirements. Courses in the minor must be taken for quality grades, and more than half of the requirements for the minor must be met by registering for courses bearing University of Chicago course numbers.

We will take as our point of departure the films of Rettinger, Ruttmann, Fischinger, McLaren, and Breer, but will also draw upon artifacts and 'animated lines' taken from further afield: found footage / artifact films of Jacobs, dance drawings of Brown, kinetic sculptures of Bit International, early plotter art, avant-garde music notation, and contemporary techniques of motion and performance capture. This course will develop theoretical lines of inquiry that run in two directions: an excavation of a "pre-history" of contemporary new media graphic techniques and a reinterpretation / reinvigoration of our understanding of early animation. Film production, hand-animation or computer programming experience are welcome (but none are prerequisites for the course). Students will be expected to complete regular short "sketches" of techniques towards a final short animated film.

ARTV 20011. Control Art. 100 Units.
This class is an investigation into the relationships between the forces of community building, aesthetics and social control using a selective history of art and art systems in the People's Republic of China (PRC) as a case study. The class will speak to the ways that groups and governments alike have used art and aesthetic objects to influence, coerce and inspire people and to produce new social meaning. Broadly, the course questions how contemporary art production has evolved in tandem with the development of the modern aesthetic state. China provides a unique case study; today in China it could be said that there are almost two parallel cultural spheres: a statist space of official and supported cultural production, and an unofficial. The latter has been connected to rapid economic growth. The course will run in academic weeks two, and seven through ten in Chicago and will culminate in a required trip to Beijing June 15-28, 2018. Course readings will provide an introduction to the historical and philosophical conditions of art making in China; ideas about originality and the copy; the spheres the public and the private; labor; and pleasure. Course discussions will focus on how these ideas have coalesced into distinct forms and artistic production. In China, we will visit art studios, galleries, museums, and other art institutions as well as meet with museum and gallery directors, curators, political scientists and other cultural leaders.

We will examine various documentary modes of production, from films with a social message, to advocacy and activist film, to counter-media and agit-prop. We will also consider the relationship between the filmmaker, film subject and audience, and how political documentaries are disseminated and, most importantly, part of political struggle.

While a design project and architectural skills will be the focus of the class, it will also incorporate readings, a small amount of writing, and some social and geographical history. We will: (1) give students interested in pursuing architecture or the study of cities experience with a studio class and some skills related to architectural thinking, (2) acquaint students intimately with Chicago’s common residential buildings and built fabric, and (3) situate all this within a context of social thought about residential architecture, common buildings, housing, and the city.

ARTV 20300. Introduction to Film Analysis. 100 Units.
This course introduces basic concepts of film analysis, which are discussed through examples from different national cinemas, genres, and directorial oeuvres. Along with questions of film technique and style, we consider the notion of the cinema as an institution that comprises an industrial system of production, social and aesthetic norms and codes, and particular modes of reception. Films discussed include works by Hitchcock, Porter, Griffith, Eisenstein, Lang, Renoir, Sternberg, and Welles.

The course presents the history of photographic practices in the United States, beginning in the late 19th century and extending into the 1980s, aimed at gaining an audience for photographs within museums of art. The issues under study include the contention over claims about medium specificity, notions of photographic objectivity, a peculiarly photographic esthetics, the division of photography into two categories—art vs. documentary —and the role of tradition and canon formation in the attempted definition of the photographic medium.
Instructor(s): J. Snyder Terms Offered: Autumn
Equivalent Course(s): ARTH 37304, ARTV 30704, ARTH 27304

ARTV 20940. The Artist as Ethnographer. 100 Units.
This interdisciplinary seminar considers the idea of the artist as ethnographer in contemporary art and curatorial practice. Through lecture, screening, and group discussions, we will trace the historical relationship between visual culture and the social sciences, uncovering how this has impacted ways of viewing objects, people, and cultures within the Western tradition. Armed with this knowledge, we will consider how the ethnographer’s commitment to the study of Others has been challenged by an increasingly globalized and post-colonial world. We will explore questions of authority and subjectivity in ethnographic fieldwork. Finally, we will look to contemporary artworks and exhibitions that have reinvested in the image and practice of the ethnographer to uncover the politics and poetics of their work. You will be introduced to the practices of Brad Butler and Karen Mirza, Paulo Nazareth, Marine Hugonnier, Camille Henrot, Kapwani Kiwanga, et al. Sessions will include close reading and discussion of texts by Hal Foster, James Clifford, Clementine Deliss, Okwui Enwezor, and Kaelen Wilson-Goldie, among others.
Instructor(s): Y. Umolu Terms Offered: Spring

ARTV 21005. Art Practice and Theory. 100 Units.
This course examines the place of artistic practice in contemporary culture and the rhetoric of images. Emphasis is placed on the visual arts, examining discourses such as the assignment of value to works, the formation of taste, the relationship between individual production and institutional practices, the role of authorship (intentionality) in the construction of meaning, the gate-keeping functions of curatorial and critical practice, the function and maintenance of categorical distinctions constituting “otherness” (high/low, naive, primitive, outside), the relationship between truth and authenticity, and the uses of art (e.g., transcendence, decoration, activism, therapy, play). Visits to museums, galleries, and other cultural and commercial sites required, as is attendance at designated events.
Instructor(s): A. Ginsburg Terms Offered: Autumn
Prerequisite(s): ARTV 10100, 10200 or 10300

ARTV 21501. Introduction to Printmaking. 100 Units.
An introduction to basic printmaking techniques, including monoprint, intaglio (drypoint), planographic, and relief printing. Printmaking will be explored as a “bridge medium”: a conduit between drawing, painting, and sculpture. Emphasis will be placed upon investigating visual structures through “calculated spontaneity” and “controlled accidents,” as well as on the serial potential inherent in printmaking, as opposed to the strictly technical aspects of this medium.
Instructor(s): K. Desjardins Terms Offered: Spring
Prerequisite(s): ARTV 10100, 10200, or 10300
Equivalent Course(s): ARTV 31501

ARTV 21701. Conceptual Drawing, 100 Units.
When does a drawing become an object rather than a picture? How can a line leave the page and be made as an action in the world? Can a design tell a story? These questions and many others will guide course work, addressing the history of drawing, its contemporary condition as its potential for presenting personal ideas and innovative new forms. Art historical examples and non-art formats such as maps, instructional graphics and schematics will be introduced as models for weekly assignments and longer-term projects.
Instructor(s): S. Wolniak Terms Offered: Winter
Prerequisite(s): ARTV 10100, 10200 or 10300
Equivalent Course(s): ARTV 31701

ARTV 22200. Introduction to Sculpture. 100 Units.
This course introduces the technical fundamentals of sculptural practice. Using basic introductions to welding, basic woodworking, and metal fabrication, students will undertake assignments designed to deploy these new skills conceptually in their projects. Lectures and reading introduce the technical focus of the course in various historical, social, and economic contexts. Discussions and gallery visits help engender an understanding of sculpture within a larger societal and historical context.
Instructor(s): Staff Terms Offered: Winter
Prerequisite(s): ARTV 10100, 10200, or 10300
Equivalent Course(s): ARTV 32000

ARTV 22304. Ceramics: Surface and Content. 100 Units.
Ceramics and painting have a long connected history. In *Natural History* (77–79 AD), Pliny the Elder attempts to trace the history of portraiture. Butades the potter, brokenhearted at the departure of his soon-to-be-married daughter, catches a glimpse of her profile on the wall from the reflection cast by a candle and traces the outline with some clay. In the retelling of this narrative, this act of doubling is attributed, variously, to the origin of portrait painting and to the origin of the portrait modeling, depending on the focus of the outline as an act done by a brush or the plastic actions of filling in the trace. While historically apocryphal, this account captures the historical dance between ceramics as a surface for painting and material to form shape. In this course, you will bring surface and form together to create a space and site of content. While using the inherently plastic nature of clay to create shape, the workshop format of this course will instrumentalize the surface to test and play with color and line. Thinking of ceramics as a flexible surface for archival paint, also known as glaze, this studio course will test glazes, oxides, decals, and multi-fired surfaces. Assignments will be geared towards experimental results that allow students to further their own interests and practices.
Instructor(s): A. Ginsburg Terms Offered: Spring
Prerequisite(s): ARTV 10100, 10200, or 10300
Equivalent Course(s): ARTV 32304

ARTV 22313. Building a House for a Kiln II. 100 Units.
Building a House for a Kiln II, taught in collaboration with David Woodhouse and Andy Tinucci of Woodhouse Tinucci Architects, is a hands-on building laboratory in which students will construct a student-designed structure adjacent to the Logan Center for the Arts. Students will have the opportunity to take up hammers and trowels to create a lasting sculpture that will house kilns for the University arts community. Building, the third in a design/build series, is an opportunity to work at an unusually ambitious scale and will create a work space that gives the arts community access to kilns. In this course, students will be asked to construct elements of the structure, from walls to exterior claddings and interior cabinetry. Construction and material processes and techniques will be explored and taught, and the results will be physical. No prior building experience necessary.

ARTV 26214. On Art and Life. 100 Units.
This course is a multidisciplinary intensive into the ways in which artistic production is dependent on and part of larger cultural tropes. Utilizing contemporary culture as a framework, how does art form connective tissues with the worlds that happen outside of the artist's studio? Visual art is a communicative form that requires subject matter, and this course will investigate the myriad of ways that artists mine culturally meaningful materials, forms, and images as both subjects and as palette. Participation in several field trips and out-of-class film screenings is required. Reference materials are drawn from a variety of disciplines.

ARTV 27210. Intermediate/Advanced Painting. 100 Units.
The goal of this course is to literally expand your painting practice and your definition of painting. Through a series of studio projects, we will consider fundamental issues surrounding 21st-century painting such as: figuration/abstraction, the body, digital/analog, painting's expanded relationship to itself and to other media. In the studio we will frequently subject painting to juxtaposition with other 2-D, 3-D, and 4-D media as we come to terms with the actual physical properties of paint. A final project serves as a culminating experience.
Instructor(s): K. Desjardins Terms Offered: Spring

ARTV 27214. Art and Knowledge. 100 Units.
This course is an exploration of questions concerning the relationship between Art and knowledge. Is Art knowledge? Can Art create knowledge? If Art is neither knowledge nor creates knowledge, what is its function? These questions are discussed using themes: secrecy, rumor, ignorance and surveillance, and a corresponding set of artworks by a group of artists who utilize these approaches: Vito Acconci, Bruce Nauman, Sophie Calle and Julia Scher, among others. We will also do close readings of essays relating to our themes, for example: texts on recent theories of ignorance as knowledge or Derrida's metaphysics of presence. To round out our discussions, students will participate in a series of hands-on art exercises to give our analyses more material form and further exemplify our exploration.

ARTV 27920. Virtual Reality Production. 100 Units.
Focusing on experimental moving-image approaches at a crucial moment in the emerging medium of virtual reality, this class will explore and interrogate each stage of production for VR. By hacking their way around the barriers and conventions of current software and hardware to create new optical experiences, students will design, construct and deploy new ways of capturing the world with cameras and develop new strategies and interactive logics for placing images into virtual spaces. Underpinning these explorations will be a careful discussion, dissection and reconstruction of techniques found in the emerging VR “canon” that spans new modes of journalism and documentary, computer games, and narrative “VR cinema.” Film production and computer programming experience is welcome but not a prerequisite for the course. Students will be expected to complete short “sketches” of approaches in VR towards a final short VR experience.
